

Automatic Gear Pump Liquid Filling Machine

Model No.: **FP-465**

Automatic Gear Pump Liquid Filling Machine FP-465 is designed and engineered to produce outstanding quality and precision filling suitable for various products like shampoo, hot sauce, lubricant oil etc. FP-465 can also replace piston or peristaltic module for the flexibility of filling demands.

FEATURES:

- PLC program and touch screen
- Made of SUS 316 and 316L stainless steel ,meets cGMP requirement
- No bottle no fill
- Module gear-pump engine fill the product simultaneously and accurately
- Index system for exactly bottle positioning without bottle jam
- Active shut-off nozzles
- Diving nozzle to eliminate foamy bubble
- With emergency button and tower light
- Outstanding performance for various products like water, juice, coffee, lotion, shampoo, cleaner or any other free flowing liquid

OPTIONS:

- Module fill engine : piston, peristaltic and overflow
- Bottle in-feed and out-feed accumulation tray
- Turnkey linkage with capper, labeler and other in-line systems
- Door-open auto-stop comply with safety operation

SPECIFICATIONS:

- Power : single phase 110/220VAC, 50/60Hz
- Filling range : 50~4000ml
- Accuracy : 0.5%~1%
- Machine Dimensions : (L)1800mm (W)1050mm (H)1800mm

The above specifications are subject to change without prior notice.
